

## Topic

We have had a very busy beginning to our new topic so far. The children all enjoyed learning about the farm animals and dressing up on our topic launch day. We learnt lots of interesting facts about the animals that we saw and used them to write a recount. Below is a recount written by Tazkira in Class 4.

We have also been busy learning about plants and took part in a trip to the Stacey Centre where we completed a bug hunt, a plant hunt and planted our own seeds. We look forward to hearing from the children about how their plants are growing. Here are some photos from our visit.

## Home Learning

Thank you for the fantastic farm animals that have been created as part of Home Learning. They are being displayed proudly in your child's classroom. Please feel free to pop in and have a look.

## **Preparation for Year 2**

We are continuing to promote the children's independence by encouraging them to organise themselves at the beginning and end of the school day. The children are regularly reminded to gather their belongings and check that they have everything (jumper, water bottle, book bag etc). Please can you continue this at home by encouraging them to check they have everything they need for school before leaving home and by letting them know when there are letters in their book bags that they need to hand in.
